

Unite Private Networks is THE top-of-the-line telecommunication fiber company. We are seeking an experienced **Construction Manager** to join our **Operations** team. This role will plan, direct, and coordinate all activities pertaining to the daily operation of the outside fiber plant.

The *ideal candidate* will be capable of estimating, engineering, permitting, contracting, designing, and the maintenance of new fiber optic network build projects and existing fiber facility relocations.

Specific responsibilities may include, but not limited to:

- Estimating, engineering, permitting, contracting, designing and maintenance of new fiber optic network build projects and existing fiber facility relocations
- Develop accurate Outside Plant Fiber construction estimates for new opportunities and maintenance requirements.
- Handle the day-to-day operations of the Outside Plant Fiber network to include Engineering, permitting, contracting, designing, and maintaining of new building adds and existing Fiber facility relocations.
- Works closely with upstream groups, completing fiber verification requests, design, permit and manage construction of new fiber network.
- Monitors infrastructure builds and reviews/punch lists and approves work has met UPN's construction standards.
- Meet with contractors, Right of Way Representatives, Engineering firms, customers, other OSP engineers and vendors to coordinate/mitigate projects.
- This position manages all employees of the department and is responsible for the performance management and hiring of the employees within that department.

Requirements/Qualifications:

- High school diploma or GED required.
- 3-5+ years of OSP fiber engineering and construction experience, telecom experience preferred.
- Strong OSP construction knowledge with ability to read/red-line construction drawings to facilitate new builds, relocations, and emergency repairs.
- Exposure to permitting, engineering, contractor management, fiber splicing, project management, different types of underground and aerial cable plant installation and maintenance.
- This position requires travel with a company vehicle, anywhere from 50% - 75% during the day, within the state to ensure effectiveness throughout the team.

Qualifications (What makes YOU stand out):

- Assumes responsibility for contribution to the success of major or multiple projects and is periodically called upon to make decisions.
- Excellent interpersonal, coaching, managerial, and leadership skills are needed.
- Strong communication skills; thorough and attentive to details; able to prioritize and multitask; proactive and deadline oriented.

Salary is commensurate upon education and experience. Qualified candidates interested in this opportunity should submit their cover letter, resume and salary requirements.

UPN is an Equal Employment Opportunity Employer.
